Come to me oh Mr. Nile  
With you water so fertile  
Gives life to all mankind  
You will never know what you find  
You're the creator of all good things  
Prosperity you do bring  
You got your name from the Greek word Valley  
At your banks we do rally  
Your water travels a really long ways  
Going from one end to the other will take days  
Only your water offers so much  
That the people want to double dutch  
When you floods  
You make good muds!!
